## Assistant Professor in Field Crops Entomology, Cornell University

Dear Colleagues,

I am pleased to share that the **Department of Entomology at Cornell University** is inviting applications for a **tenure-track Assistant Professor position in Field Crops Entomology**.

The successful candidate will be expected to develop an internationally recognized **research and extension program** focused on **Integrated Pest Management (IPM)** of grain and forage crops, including:

- Corn (>1 million acres in New York State)
- Alfalfa hay (500,000 acres)
- Soybeans (350,000 acres)
- Wheat (150,000 acres)
- Other small grains

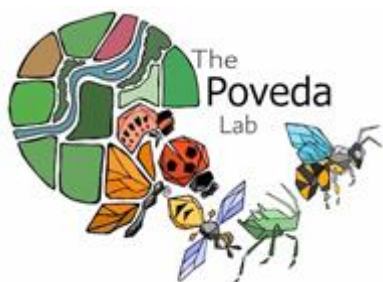

We are particularly interested in candidates who can build trust and communicate effectively with field crop farmers and stakeholders, while collaborating extensively with colleagues at Cornell to advance its **Land Grant mission**.

✦ **Full details and application instructions are available here:**
